

Survey of ICFP Youth Pre-Conference Participants

Q1 We would like to request your participation in a survey about your opinions on young people's family planning/contraceptive use behaviors and reproductive health. The information obtained in this survey does not include any information that is linked to you directly. Your responses will be confidential and no names will be obtained.

It is your choice whether or not to complete the survey and should you choose not to complete the survey, no one will know. Completion of the survey does not relate at all to your current or future conference participation. The survey should only take about 15 minutes to complete. You can stop the survey at any time should you choose not to complete it.

By continuing with the survey, you are consenting to participating. If you have any questions about your participation in this survey, you can contact Dr. Ilene Speizer at ilene_speizer@unc.edu or +1-919-962-3513.

Q5 In this survey, we are asking questions about adolescents (ages 15-19 years) and youth (ages 20-24 years) in the community you currently reside. We are trying to get your perceptions of what these adolescents and youth think about family planning/contraception and reproductive health. In some questions, we ask specifically about unmarried adolescents and youth and in other questions we ask specifically about those who are married or in union.
